

IT'S A ONCE IN A DECADE INVESTMENT

Despite Waterford Union High School's outward appearance, it requires essential repairs and modernization to continue serving students. On February 20, 2024 voters will be asked to address these deficiencies with a two-question referendum:

QUESTION #1

Addresses failing building systems. Modernizes learning and support areas (including Maple View and Tech Ed areas) Enhances safety, security, and ADA accessibility.

QUESTION #2

Addresses need for ADA parking and permanent restrooms for athletic sites. Repairs stadium lighting, soccer fields, and relocates softball fields. Replaces bleachers, press box, track and field event spaces.

If the proposed investment is approved, the school board took action to place a moratorium on future bond referendums for the following 12 years.

IT'S A FISCALLY-RESPONSIBLE PLAN FOR CONTINUED SUCCESS

After careful consideration and collaborative efforts, the School Board unanimously voted to include two questions on the February 20, 2024 primary ballot. This two-question referendum aims to address all our facility needs at once for a timely, cost-effective solution to our facility problems. This comprehensive approach will lead to more efficient and effective improvements, while reducing the time, costs, and resources needed for short-term fixes and continued referendums.

IT'S FOCUSED ON STUDENT, STAFF, AND COMMUNITY PRIORITIES:

EXPANDS TECH ED SPACES

Modernize and repair existing tech education spaces, as well as add new space and infrastructure to fully support auto, construction, and manufacturing programs.

CHEAPER NOW RATHER THAN LATER

Needs are not going away.
Construction costs are increasing.
Costs significantly less than building a new school.

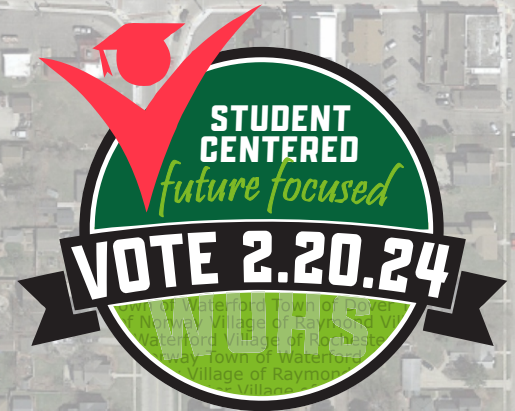

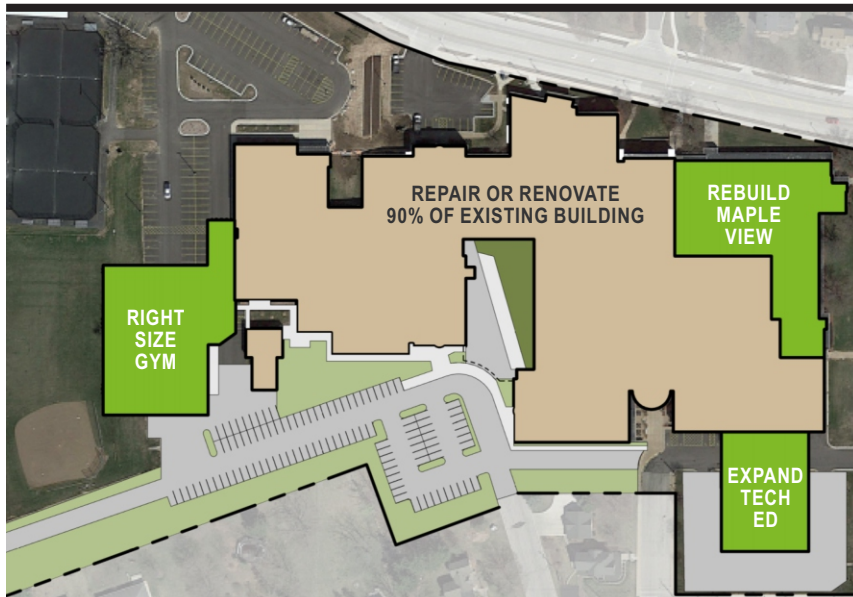

MAINTAINS EDUCATIONAL EXCELLENCE

WUHS is ranked as the best high school in Racine County.
Student achievement is ranked in the top 15% of Wisconsin high schools.
Rated #11 statewide for best teachers.

ACTING NOW WILL SAVE LATER

2024 REFERENDUM

PROPOSED CONCEPT

Additional details can be found at WUHS.ReferendumFacts.org

IT'S A PLAN TO ACHIEVE OUR FACILITY GOALS ALL AT ONCE, AND REDUCE PIECEMEAL FIXES

This approach reduces costs and allows the District to:

REIMAGINE PROGRAMMING

- Expand Career & Technical Education spaces to better support general construction, robotics, welding, and automotive programs.
- Incorporate an in-house alternative education program.
- Enhance fine arts, drama, band, and choir spaces.
- Create large group instruction spaces.

REPAIR FACILITIES

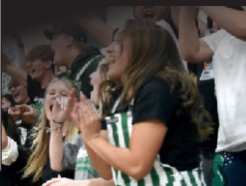

- Fix mechanical, electrical, and plumbing systems.
- Repair and replace HVAC systems and related controls.
- Improve fire safety, entrance security, and ADA accessibility.
- Upgrade stadium, soccer and softball fields; add restrooms, parking, and ADA access.

RESTORE TRUST

- Deliver approved projects on time, on budget, and provide updates from start to finish.
- Implement fiscally-responsible improvements that extend the life of our school and reduce costs.
- Make a once-in-a-decade investment to eliminate the need for additional bond referendums.
